RE: Court Rule No. 2003-47

I am strongly against to changing the law to deny me and deprive me of my right to trial by jury. I thought the Michigan and United States Constitution gave me this right, so why is the Michigan Supreme Court even thinking of proceeding in taking steps that would change the law by denying Asbestos disease victims their right to a jury trial?

I have worked in the steel mill for over 37 years and have been exposed to asbestos for near as many years without knowing the dangers. So why does the Michigan Supreme Court want to be used as fools by the asbestos industry to let these big businesses deny the working people their right to trial by jury when they have been the ones that have been harmed and damaged by the corporate misconduct of these companies?

It's time for these big companies and certain conservative judges to hold the corporations accountable instead of blaming the victims of corporate misconduct.

Judges are not to make the laws or change them, but to interpret the laws, so let them do that and give all victims the right to trial by jury.  
Thank-You
